#### Notes

1. The PJM system mix represents all resources used for electricity generation in the region. Horizon Power and Light, LLC purchases power from the PJM system mix.
2. CO<sub>2</sub> is a "greenhouse gas" which may contribute to global climate change. SO<sub>2</sub> and NO<sub>x</sub> released into the atmosphere react to form acid rain. Nitrogen Oxides also react to form ground level ozone, an unhealthful component of "smog."
